

ESADE Business & Law Schools

How to survive in the first week

Don't be afraid to study abroad. Prepare for adventure and new experience. Barcelona is a tourist and lively city. When I arrived to my apartment, I met my roommates from various countries such as Italy and France. They warmly welcomed me and invited me to join dinner and hang out with them. It was a nice way to start living abroad.

Spanish is the main language in Spain. ESADE Business Schools provide an intensive Spanish course for exchange students in order to provide Spanish basics for using in daily life. Also, I met many friends from the course.

How to prepare for studying

ESADE Business School provides a welcome package for exchange students. Students will know the general information about registration and courses from the package. Also, each student will have an email in their student account to ask questions to the coordinator and receive news from the school. Also, ESADE Business School provides a buddy system program for exchange students that helps students to meet new friends.

Lifestyle

The famous transportation in Spain is the metro. There is a special ticket for students called T-Jove, which is an unlimited trip for 3 months and costs around 150 Euros. ESADE Business Schools are located in the Sant Cugat Campus, a city nearby Barcelona. Normally, I travel to school by metro, which takes around 20 minutes.

In Thailand, the school focuses on exam and quiz for grading. In ESADE, the school focuses focus on participation and group project for grading system. You need to pay attention and get involves in class by asking questions during the class also work hard on projects.

You don't need to worry about missing Thai Food in Barcelona. There are plenty Asian restaurant and shops that you can find many good Thai foods and ingredient for cooking Thai dish at home. Mostly I cook at home because it save a lot of money and it's also great

Activity

ESADE provide many activities for exchange student such as welcome orientation, school trip by CIEE group which is student association that set up the trip for the student to enjoy like Ibiza trip where you can't miss night life when you arrive in Spain.

One of the reasons that I chose Spain for my exchange program is **travelling**. You can travelling around Europe and enjoy the nice view of European country by cheap flight. It is most recommend activity that you must do.
